

INTRODUCTION

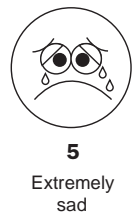

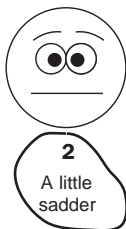

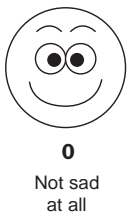

ChIMES asks you some questions about how your child's mouth or throat feels and how hard it is for them to eat, drink, or swallow. You can tell us this information by choosing one of the faces below each of the questions.

Here is an example of how you may complete ChIMES:

On the day of the patient's best birthday ever, if we asked you how happy they were, you would probably choose and circle the answer like this:

On a day when the patient has tests in school, you might choose:

MOUTH SORES
